2026 Montgomery County Fair 4-H

Jolene Rodgers, 4-H Program Associate

Missouri 4-H Youth Programs are under the direction of the University of Missouri Extension.

“Learning by Doing” is the basis of 4-H work. Each year thousands of young Missourians between the ages of 8 and 18 are doing just that. In these projects, 4-H members make the items displayed in the Montgomery County Fair 4-H Exhibit Building or raise and train the animals on display in County Fair shows. The Montgomery County Fair proudly provides a showcase for the skills and knowledge that 4-H members have gained through their 4-H experiences.

Besides developing practical skills and knowledge, 4-H members are developing life skills. Under the leadership of more than 9,000 adult volunteers, 4-H members will learn to make sound decisions, work cooperatively in groups, and develop a sense of self-worth and accomplishment. 4-H also fosters leadership, as older youth share their talents with younger 4-H members.

We salute all Montgomery County 4-H members, volunteers, families, and particularly those “learning by doing” experiences that are represented each year at the Montgomery County Fair.

General Rules

1. Entries are limited to active 4-H members who meet the following requirements: names must be on file at the Montgomery County Extension Center, member must be between 8-18 years of age on January 1, 2026, attendance at seven (7) 4-H club meetings by July 1, a majority of their project meetings, and has met all club requirements.
2. Entries will be received from 8:30 to 11:00 am on Monday, July 20, and must remain in place until Sunday, July 26. Check-out time is from 11:00 am to 12:00 pm on Sunday, July 26. All 4-H exhibits must be checked in and checked out of the 4-H building by 4-H Extension personnel during established times **(no exceptions will be made)**. **No early removal or checkout of items is permitted.** Items that are not properly checked in or out of the 4-H building may not be awarded premium money and/or ribbons.
3. Exhibits will be judged using the Danish system. Premiums will be paid according to a point system assigned to each class. **Each point will be worth \$1.00.** Fair officials reserve the right to modify point values on items. Top blue ribbon exhibits will be selected for the state fair and second place blue ribbon exhibits will be selected for Old Threshers. County classes (activity display and fleece) are not eligible for the state fair but top blue ribbon exhibits are eligible for Old Threshers.
4. A 4-H member may exhibit a maximum of three (3) exhibits for each project in which they are enrolled. A project is defined as a number listing as it appears in “The Clover”. Fair classes correspond to projects as listed in “The Clover”. Example: A maximum of three (3) items made by a member enrolled in Clothing 1 must enter their exhibits in fair class #521. Members exhibiting live animals at the fair may have one (1) exhibit building item or one (1) fleece plus animals exhibited. No live animals in the exhibit building. Only one (1) items per 4-H member will be eligible to go to the State Fair. Each member may submit a second project virtually, the second project picture will be on T.V.’s. This is to allow more participation by a large number of 4-H Members from the county. All physical projects must fit within the 24"x24"x24" size limit.
5. Items made by 4-H members should reflect the skills they have learned in their 4-H project, the needs and interests of the 4-Her, and quality workmanship. Exhibits must be of blue ribbon quality. Use the 4-H project literature and “The Clover” for ideas and criteria. 4-H members may display only in projects in which they are enrolled in the current 4-H year. Items showcased must be made in the current year and must be the work of the 4-H member submitting the item.
6. Tags will be printed from FairEntry and provided to members. All items must have a fair tag securely fastened to the item in a place, which is visible to fairgoers. When an item includes more than one piece, each piece must be labeled with a tag. Be sure to indicate 1 of 2, 2 of 2, etc. If any exhibit consists of more than one part, identify each part. (Examples: jacket and skirt; rocket and rocket launcher; ceramic tea set; mittens; etc., should have an identifying label on each piece).
7. Items are displayed at the risk of the individual 4-H member. The 4-H staff, Extension Center, and the Montgomery County Fair are not responsible for loss or damage to items.
8. Notebooks, posters, and file card systems will be accepted from any project. Youths who show notebooks, posters, or file card systems should understand that their items could be touched and examined by fairgoers. Those with notebooks selected for the State Fair will select 1 page that represents their notebook, which will be put in a plastic sleeve for display at the State Fair.

9. All exhibits may be any item made unless stated otherwise. This includes notebooks, file cards, photo displays, posters, or educational displays. Due to the display space and number of exhibits in certain projects, dimension criteria are specified. Items that do not comply with size or other specifications will not receive a blue ribbon. There should be no posters, notebooks, or patterns attached to projects. Scrapbooks made in projects other than class 315 will be displayed in the Library or with other exhibits.

10. Photography entered in project areas besides photography should follow mounting and editing guidelines of photography exhibits.

Dimension and Class-Specific Requirements

Poster - All posters should be no larger than 14" x 22" flat.

Photo Display - Photos must be mounted on a rectangular 8" x 10" matte board. The matte board can be the color of the photographer's choice. The photographs must be 8" x 10" or smaller. The mounted photo should be placed in a clear plastic 8-1/4" x 10-1/2" sleeve. Oversized Ziplock bags should NOT be used. **Please note** - "Solid" requires that there are no cutouts or other holes in the matte board, either around or behind the photo (ex: a surface shaped like a picture frame is not a solid mounting surface). Sleeves are intended to protect these exhibits from dust and humidity. **DIGITAL EDITING RULES:** 1. Altering (changing contents of) a photo is not permitted. Examples: Add a sunrise or object, removing someone from the shot, airbrushing to cover a bad complexion, giving a subject dinosaur eyes, etc. 2. Enhancing (editing to improve the existing qualities of) a photo is permitted. Examples: cropping the photo, eliminating redeye and changing levels of saturation, brightness, contrast, etc.

Educational Display - The size must not exceed 24" in height, 24" in depth (front to back), and 24" in width. Must include three-dimensional items and stand alone. (Posters with items taped to them do not qualify as educational displays. Science fair boards are too large.)

Entomology or Geology Display Boxes - Boxes must be no more than 18" long, 24" wide, and 3 ½" deep or smaller to fit in display racks. Plexiglass or plastic covers are preferred. No handles or knobs. Must have a clear display lid, and no open boxes.

Working Models - These exhibits should show how things actually work (cutaway sections of motors or computers) or can be used to help people identify parts, such as parts of a motor or computer. Many times these exhibits are considered "hands-on" and can be handled by visitors. Working models should require floor space no larger than 24" x 24".

Scrapbooking - Exhibits should be only 1 page/1 side representative of the complete book. Size not to exceed 12" x 12". All pages should be in a clear protective sleeve or zipper bag. Do not frame. If more than one page is submitted for an exhibit, the exhibit will be disqualified.

Decorated Cakes - The use of forms or pans is recommended. Cakes (including the thickness of the cake board) should not exceed 13" in height. Cake boards should be sturdy, especially if using a cake pan. The use of styrofoam forms is recommended. May only use Royal icing, Rolled Fondant or commercial product that will harden and preserve the decorated cake. Cakes may only contain non-perishable items. They should not be real cakes, or use butter creme, soft royal icing, or tube/gel icing, or include items such as pineapple tops or real flowers. Adding Tylose powder to fondant will help it hold its shape in the humidity. Cakes with candy decorations are allowed; however, avoid using candy that melts (e.g. M&M's candy canes, etc.). Cakes that have melting items may be removed from display.

Gardening and Foods - Perishable items such as food, vegetables, crops, and homegrown items will not be returned after the fair.

Shooting Sports - Exhibits should contain **NO LIVE AMMUNITION** and arrow points should be removed.

Batteries - Any exhibits using batteries, such as circuit boards or robots should not connect the wires to the battery; rather the wires should be taped behind the battery. Another option is to not attach a battery, but indicate "battery goes here". This is to prevent potential fire hazards.

All exhibits are subject to the FULL State Fair Guidelines. They are posted online.
